## Decarbonisation: Roadmap to 2050

The European Commission organised a stakeholder event in July discussing the EU's vision for a modern, clean and competitive economy. A Public Consultation was launched, preparing for a proposal on a mid-century low carbon emissions strategy to be published in November 2018. Key topics discussed were the role played by renewables and energy efficiency, the 1.5 degrees scenario and the upcoming COP 24 in Katowice.

The two-day event was covered by Dods and the briefing can be accessed [here](#)
