The New European Commission 2019-2024

This early September, the European Commission President-elect Ursula von der Leyen presented her proposal for the allocation of Commissioner portfolios. She also published the individual mission letters to each Commissioner detailing what she expects of them in the next legislative term. As a next step, the European Parliament has to give its consent to the entire College of Commissioners. Dods EU Monitoring have produced an overview of the Commissioners-designate with a short biography of each nominee for the new European Commission. These candidates will appear before the relevant European Parliament committees at the end of September, and should the Parliament vote to approve the College in its entirety, the Council is then expected to officially appoint the new College of Commissioners.
