## Online service providers and limited liability - Dods EU Briefing

On June 26, the European Parliament's Internal Market and Consumer Protection Committee organised a Digital Single Market workshop on Online Service Providers and the limited liability regime of the E-Commerce Directive. The workshop considered whether the Directive is still fit for purpose, given that it is 17 years old, and whether a revision of the Directive is necessary. During the discussion comparisons were drawn with the regulatory regime in the US and participants deliberated the role of the courts in ensuring an appropriate application of the Directive. For a detailed summary of what was discussed, please complete the form below.
