## Proposal to review the audiovisual media services directive - Dods EU Briefing

On May 23, the Council of Ministers discussed the Presidency's compromise text on proposal to review the audiovisual media services directive. Several aspects were raised during the debate such as the minimum quota for European works, advertising, jurisdiction and the protection of minors. Initially, several Member States were unable to accept the general approach. However, after further discussions and making some changes to the text, the general approach was adopted.
